

INDEX

ANSI Standard Device Number

Device No.	Description	Device No.	Description
1	Master Element	59	Overvoltage Relay
2	Time Delay Starting or Closing Relay	60	Voltage or Current Balance Relay
12	Overspeed Device	61	Machine Split Phase Current Balance
13	Synchronous-speed Device	62	Time-Delay Stopping or Opening Relay
14	Underspeed Device	63	Pressure Switch
15	Speed - or Frequency-Matching Device	64	Ground Detector Relay
21	Distance Relay	65	Governor
23	Temperature Control Device	66	Starts per Hour
25	Synchronizing or Synchronism-Check Device	67	AC Directional Overcurrent Relay
26	Apparatus Thermal Device	68	Blocking Relay
27	Undervoltage Relay	69	Permissive Control Device
29	Isolating Contactor	71	Level Switch
30	Annunciator Relay	72	DC Circuit Breaker
32	Directional Power Relay	74	Alarm Relay
36	Polarity or Polarizing Voltage Devices	75	Position Changing Mechanism
37	Undercurrent or Underpower Relay	76	DC Overcurrent Relay
38	Bearing Protective Device	78	Phase-Angle Measuring or Out-of-Step Protective Relay
39	Mechanical Conduction Monitor	79	AC-Reclosing Relay
40	Field Relay	81	Frequency Relay
41	Field Circuit Breaker	83	Automatic Selective Control or Transfer Relay
42	Running Circuit Breaker	84	Operating Mechanism
43	Manual Transfer or Selector Device	85	Carrier or Pilot-Wire Receiver Relay
46	Reverse-phase or Phase-Balance Relay	86	Lockout Relay
47	Phase-Sequence Voltage Relay	87	Differential Protective Relay
48	Incomplete-Sequence Relay	89	Line Switch
49	Machine or Transformer Thermal Relay	90	Regulating Device
50	Instantaneous Overcurrent	91	Voltage Directional Relay
51	AC Time Overcurrent Relay	92	Voltage and Power Directional Relay
52	AC Circuit Breaker	94	Tripping or Trip-Free Relay
53	Exciter or DC Generator Relay	95	Reluctance Torque Synchrocheck
54	High-Speed DC Circuit Breaker	96	Autoloading Relay
55	Power Factor Relay		
56	Field Application Relay
